Subject: I support Lynn Canal Highway

All-

No other project in the state will save as much state costs and user costs as the Lynn Canal Highway. I believe a separate category stating how much each project saves users and the state treasury should be added to the STIP so that the public has an accurate picture of annual maintenance costs.

On the price of fuel and concerns raised about our "carbon footprint" and the fact that ferry service in Lynn Canal burns more fossil fuel than vehicles traveling the highway, I suggest a new category be added to the STIP estimating the increase or decrease in usage of fossil fuels.

Thank you for your time.

Chuck Campbell
